Aspiring Software Development Engineer | Full-Stack Developer | DSA Enthusiast | Problem Solver

Education

GLA University, Mathura, Bachelor of Technology in Computer Science and Engineering   Aug 2024 – May 2028
- CGPA: 8.09/10.0

Technical & Professional Skills

- **Languages:** Java, JavaScript, Python, C++, C.
- **Frontend Technologies:** React.js, Tailwind CSS, HTML/CSS, Responsive Web Design, UI/UX Design, DOM.
- **BackendTechnologies:** Node.js, Next.js, Express.js, MongoDB, NoSQL, SQL, Supabase, Firebase.
- **Tools:** GitHub, VS Code, Postman, Canva, Vercel, Railway, Render (Cloud Deployment).
- **Concepts:** Data Structures and Algorithms (DSA), Software Engineering Principles, Object Oriented Programming (OOP), Database Management Systems (DBMS), Full-Stack Development.
- **Professional and Soft Skills:** Teamwork, Leadership (Associate, CodeBusters), Team Collaboration.

Training Experience

APGC (Astroparticle Physics, Gravitation and Cosmology) Website   April 2025 – July 2025
- Developed a International Conference Website using React.js, TailwindCSS etc.
- Got a Letter of Appreciation from GLA Univeristy, Mathura.

Data Analyst Intern at Cognifyz   Nov 2025 – Current
- Working on real world problems.
- Learning about how data is managed, visualized and insights are extracted from it.

Achievements

- Solved **300+** Data Structures and Algorithm questions on LeetCode and various coding platforms.
- Participated in **5+** National level hackathons and Secured **Top 5** rank in each hackathons.
- Built 5**+** Fullstack projects in Mern and Next.js.

Projects

BharatNetra (MERNStack, APIs, Chart.js) **[Live][GitHub]**
- BharatNetra is a law enforcement webapp for impower Indian cyber agencies.
- Create multiple tracking and validator tools to speed up cyber investigation.

SuperPass   (MERNStack) **[Live][GitHub]**
- SuperPass is a event hosting and management app to fully automate the event orgainising process.
- Automated an event using this app organised by my own club CodeBusters.

SChat   (MERNStack) **[Live][GitHub]**
- SChat is a real time chat application developed in Mern Stack.
- Gained knowledge of web sockets and real time communication.

Co-Curricular Activities

Associate CodeBusters Club, GLAUniversity, Mathura   Dec 2024 – Present
